Revenue Contribution by Platform

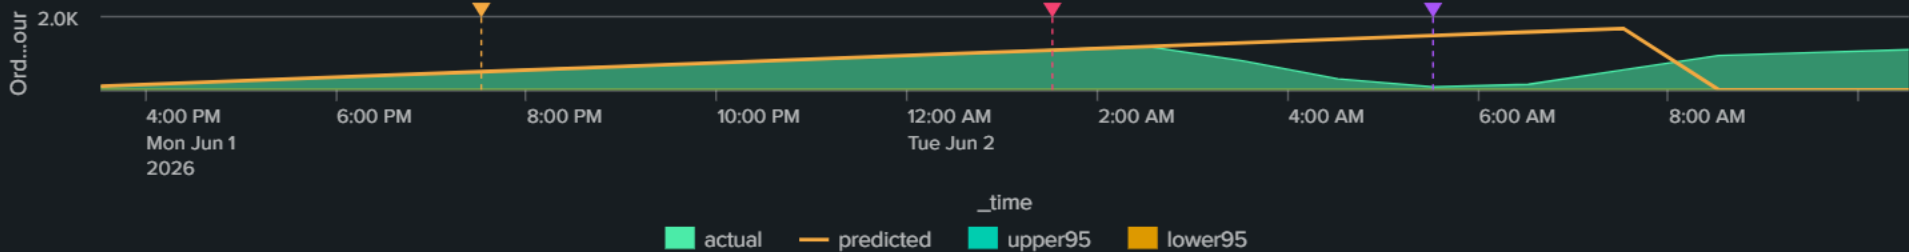

💰 Total revenue across all platforms is \$364,000 with 18,200 total orders and 2,400,000 combined impressions

✅ TikTok leads performance with \$184,000 revenue, highest conversion rate at 12.1%, lowest cost per order at \$20.11, and minimal bot ratio of 2.3%

⚠️ X / Twitter presents the biggest risk with 8.7% bot ratio causing \$87,600 in lost GMV, highest cost per order at \$29.75, and lowest conversion rate at 8.1%

🔄 Reallocate budget from X / Twitter to TikTok to reduce the \$116,800 total lost GMV and improve overall campaign efficiency by 40%

Lost Opportunity — Predicted vs. Actual Orders during incident
